From a club visit to a *build plan*

من زيارة النادي إلى خطة التنفيذ

Six steps turn what clubs tell us into what we build next — and a way to prove it worked. On the right, one answer from one club, followed all the way through.

1. Collect جمع

A visitor fills one questionnaire per club: 47 questions, the 22-line priority grid and the open "speak your mind" notes.

→ 12 paper forms · photos of what they were shown

ONE ANSWER, FOLLOWED

Falcon Kicks · Q21 chasing = 5 · "2–3 hours every week"

2. Digitise رقمنة

Each form becomes ONE row in a spreadsheet: every tick, circle and number in its own column. Same day as the visit.

→ coded-responses.csv — 1 row per club

ONE ANSWER, FOLLOWED

C01 · F05 = must · top-5 rank 1

3. Code the words ترميز الكلام

Open answers are tagged with pain themes from a fixed codebook (PAY, PAUSE, WA…), by two people, then compared.

→ theme count per club

ONE ANSWER, FOLLOWED

"who has NOT paid" → PAY · "30 kids paused" → PAUSE

4. Score demand قياس الطلب

Demand = (Must + 0.4 × Nice) ÷ clubs. Top-5 votes and pain themes back it up; segments (sport, size) are split out.

→ demand 0–100 per feature

ONE ANSWER, FOLLOWED

Payment reminders · demand 90 · top-5 in 10 clubs

5. Compare with TAKEONE المقارنة مع تيك ون

Each feature is marked Exists / Partial / Missing in the platform today. Opportunity = demand × gap; priority = opportunity ÷ effort.

→ priority score per feature

ONE ANSWER, FOLLOWED

Reminders · Partial · effort S → priority 54

6. Plan & prove الخطة والتحقق

The ranking fills NOW / NEXT / LATER by effort. What already exists becomes an onboarding job, not a build. Pilot clubs re-answer the same questions after 30 days.

→ roadmap + a target per item

ONE ANSWER, FOLLOWED

NOW: reminders + "who owes" list → re-ask Q21 at C01

✓ Exists → show it · ◐ Partial → finish it · ✕ Missing → build it · Low demand → park it

STEP 2–5 · HOW THE ANSWERS ARE PROCESSED

The method

طريقة المعالجة

The same rules run over every form, so two people processing the same visits get the same answer. Nothing below needs special software — a spreadsheet does it; the scripts that built this report do it automatically.

One row per club

صف لكل نادٍ

COLUMNS	FROM
club code, sport, members, branches	cover + Q01–Q02
segment (martial arts / other), size (small / large)	derived
every tick, circle and number	Q01–Q47
F01–F22 = must · nice · no, and the top-5 rank	priority grid
pain themes (0/1 each)	open answers, coded
interest, urgency, pilot, monthly price	visit summary + Q47

Club names stay on the paper form; the spreadsheet uses codes (C01…). Quotes are kept word for word.

The scores

المؤشرات

Demand = (clubs saying Must + 0.4 × clubs saying Nice) ÷ clubs × 100

Gap = Missing 1.0 · Partial 0.6 · Exists 0.2 — what TAKEONE has today

Opportunity = Demand × Gap **Priority** = Opportunity ÷ Effort (S 1 · M 2 · L 3)

Top-5 votes and pain themes are the **cross-check**: a feature with high demand but no pain behind it is questioned before it is built.

Codebook for open answers

دليل الترميز

CODE	THEME	ASKED OF
APP	Parents won't use an app	all clubs
BELT	Belt-test admin by hand	martial-arts clubs only
COACH	Working out coach pay	all clubs
DATA	Fear of moving old data	all clubs
DISC	Discount maths every month	all clubs
DROP	Members drop out unnoticed	all clubs
ENTRY	Tournament entry lists	martial-arts clubs only
PAUSE	Pauses / freezes not recorded	all clubs
PAY	Chasing who has paid	all clubs
WA	Drowning in WhatsApp	all clubs

Decision rules

قواعد القرار

✕ Missing	Demand ≥ 45 → **build**, ordered by priority.
◐ Partial	Demand ≥ 45 → **finish** — usually the cheapest win.
✓ Exists	Demand ≥ 55 → **show & onboard**: clubs want it and we have it; the gap is that they don't know.
Low demand	Below the line → **park** or keep as is; re-check at the next round.
Capacity	NOW holds ≤ 4 effort points (≈ 4 weeks), NEXT ≤ 6, the rest is LATER.

Time chasing payments (Q21)

4.1 /5
Value of a progress report (Q34)

3.7 /5
Parents ask "how is my child?" (Q29)

3 /5
Registering a member is painful (Q10)

Segments differ

الشرائح

SEGMENT	CLUBS	TOP 3 MUSTS	PRICE
Martial arts	7	Belt tests & grading certificates · Sibling & special discounts · Online & QR self-registration	15 BD
Other sports	5	Automatic payment reminders · WhatsApp notifications · Member app in Arabic	45 BD
Large (150+)	5	Automatic payment reminders · Sibling & special discounts · Member app in Arabic	45 BD
Small (<150)	7	Online & QR self-registration · Upload proof of payment, admin approves · WhatsApp notifications	15 BD

Belt tests and tournament entry matter to martial-arts clubs and almost nobody else — so they are sold to that segment, not built for everyone first.

How we prove it worked

1 · Pilot
3 of the 7 volunteers — one small martial-arts club, one large club, one other sport.

2 · Ship NOW
Pilot clubs get each NOW item first, with a short call to set it up.

3 · Re-ask
After 30 days, the same questions again (Q10, Q21, Q29) — the scales are the before/after.

4 · Re-rank
New answers go into the same sheet; the ranking updates; NEXT is confirmed or changed.

Not on the plan, on purpose: an online payment gateway (deferred by decision). Installments are planned as dated parts with proof-of-payment, the way payments already work.

STEP 6 · THE EXECUTION PLAN

The action plan

خطة التنفيذ

ILLUSTRATIVE — WHAT THE REAL ANSWERS WOULD PRODUCE

NOW

weeks 1–4

الآن

Sibling & special discounts — S

Sibling and special discounts set once on the family, applied every month.

Must for 10 of 12 · in 5 clubs' top 5 · pain "Discount maths every month" heard at 7 of 12

Done when Sibling discounts worked out by hand each month → never

Automatic payment reminders — S

One red "who owes" list, and reminders that go out on their own — never to someone who paid in cash.

Must for 10 of 12 · in 10 clubs' top 5 · pain "Chasing who has paid" heard at 11 of 12

Done when Owner's hours chasing payments: 2–3 h a week → under 30 min (re-ask Q21)

Freeze / pause a subscription — M

Pause a subscription with a reason and dates; billing skips it and restarts by itself.

Must for 9 of 12 · in 8 clubs' top 5 · pain "Pauses / freezes not recorded" heard at 8 of 12

Done when Wrong charges after a pause → zero; every pause on record

NEXT

weeks 5–10

التالي

Coach pay / per-class payroll — M

Per-class coach pay worked out from the classes actually taught.

Must for 6 of 12 · in 0 clubs' top 5 · pain "Working out coach pay" heard at 6 of 12

Done when Month-end coach pay: an evening → five minutes

WhatsApp notifications — M

Club messages on WhatsApp, with the owner deciding what is ever sent automatically.

Must for 10 of 12 · in 10 clubs' top 5 · pain "Drowning in WhatsApp" heard at 7 of 12

Done when Owner's WhatsApp replies a day cut by half; owner approves every automatic message

Member app in Arabic — M

Finish the Arabic member app — every screen a parent sees.

Must for 10 of 12 · in 7 clubs' top 5 · pain "Parents won't use an app" heard at 7 of 12

Done when Every member and parent screen readable in Arabic

LATER

weeks 11–20

لاحقاً

Installment plans — M

Split a fee into dated parts, each with its own proof-of-payment and approval.

Must for 3 of 12 · in 0 clubs' top 5 · pain "Chasing who has paid" heard at 11 of 12

Done when A club can offer a 3-part payment plan without a spreadsheet (manual, no gateway)

Attendance check-in (QR / tablet) — M

Check-in at the door from a tablet or QR; absence alerts.

Must for 8 of 12 · in 4 clubs' top 5 · pain "Members drop out unnoticed" heard at 6 of 12

Done when Attendance taken in every class; a member absent 3 weeks is flagged

Progress reports for parents — M

A monthly progress card a parent receives: attendance, belt, coach note.

Must for 7 of 12 · in 1 clubs' top 5

Done when Parents asking "how is my child doing?" goes down (re-ask Q29)

Belt tests & grading certificates — L

The belt-test event type: candidates, scoring sheet, results onto the profile, certificates.

Must for 7 of 12 · in 0 clubs' top 5 · pain "Belt-test admin by hand" heard at 5 of 7

Done when A grading run end to end in the app, certificate included

Alongside, from week 1: show what already exists

7 features clubs rated as must-haves already exist in TAKEONE. Build an onboarding kit and demo each one with the club's OWN member list — the member import already exists, and "fear of moving old data" came up at 6 of 12 clubs.
